

Sustainability and Environmental Policy

QolorTech as a supplier and producer of color solutions for the industry is committed to act as a responsible corporate citizen of the world. Next to compliance with all legal requirements this includes integrating economic, social and environmental goals in policies and activities. We aim to achieve the goals mentioned below.

Employees

Provide a safe, amenable and accessible environment for all our employees in which they are treated with respect and stimulate diversity throughout the company.

Stakeholder Engagement

Engage customers and supplier and other stakeholders to identify sustainability opportunities and concerns regarding our operations and products. Collaborate with these stakeholders to developed beneficial initiatives and solutions.

Ensure that our practices of economic sustainability are meeting community expectations

Environment

QolorTech is committed to complying with environmental laws and regulations, controlling and reducing our impact on the environment where possible.

Minimize the demand for water by promoting effective water demand management systems.

Minimize the use of energy by identifying efficient and responsible energy management practices

Purchase equipment that reduces energy consumption and is technology advanced.

Monitor emerging environmental technologies, equipment purchases and work processes relevant for our activities

Seek the use of environmental sustainable recycled materials and reduce waste generation
